RETURN TO CIA LIBRARY

- 1. The Soviet-owned "Enterprise Wismuth" (SGAO "Visuat") is in charge of running the uranium mines in Germany and Czechoslovakia. Chief of SGAO "Visuat" is the MWE General Maltsev. Comment: Maltsev presumably is Major General Mikhail Metrofenovich Maltsev. 25X1 also another Maltsev at Aue named Anatoliy Aleksandrovich Maltsev whose official title is said to be "Nachalnik Upravlemiya Aktistoneracyo Obshchestva Vismut" Waltsev's office and the central administration of "Vismut" were formerly located in Aue and in Dresden. Late last fall this office was centralized and transferred to a new location in the suburbs of Chemnitz, Rabenstein and Siegmar-Schönen. Seven hundred German families were evacuated from their homes to provide billets for an estimated 200 to 250 administrative personnel.
- The only other administrative office of "Vismit' in Germany is located in Berlin-Karlshorst. This office is principally engaged in liaison work with SVAG, and especially with Koval's Directorate of Trade, and Belogorlov's Directorate of Soviet State Stock Corporations in Germany (USGAO) which controls all the Soviet-owned former German AGs.
- 3. SGAO "Vismit" is independent of any SVAG authority, and has its own independent telephone and cable communications with Moscow. In addition, it has several airplanes at its disposal to travel between Chemnitz and Moscow.
- Top priority is given SGAO "Vismut" in the requisitioning of any services, may materials, and roviet and German technical exports in the Coviet Zone of Germany. It can at will call for assistance from any Germany factory (through Koval, SVAG Chief of Industry and Trade), from SGAOS (through Major General Belogorlov, Chief of Directorate of SGAOS) or from any NTO (through the UNT, which is the central NTO office in Karlshorst. Moreover, it has at its disposal confidential funds in hard currency (dellars) with which to purchase materials, parts, or instruments which are not available locally.
- 5. "Vienut" employs no Germans in any of its administrative offices in any capacity (technical advisers, interpreters, translators).

*Chief of Administration of SAG "Wismuth"
